Doc Fee Adjustments in 2022

The Auto Dealer Services Division is aware that IC 9-32-13-7(b) allows for the fee to be adjusted annually by a percentage equal to the annual percentage change in the Consumer Price Index. While our office has not authorized a specific dollar amount increase, we have advised our examiner staff that a doc fee over \$200 is not necessarily a problem in 2022. We will be using this calculator (https://www.bls.gov/data/inflation_calculator.htm) to help our audit staff determine what might be reasonable.

We acknowledge that this is a somewhat novel issue, and therefore we will likely be reviewing this case by case. As always, we will engage in a conversation with the appropriate party whenever we have a question or potential concern.
